

EASY LANGUAGES

Total Immersion Homestay without language course

Staying with a host family is designed to allow students to learn the language of the country of choice **through total immersion** in a new environment. It also allows students to learn about **other cultures while having a fun experience and often making long-lasting friendships with the host family.**

The focus of this programme is on the student participating in daily family life and activities. Students will be placed with a family who have a child of the same gender and similar age (+/- 2 years). Each and every family is carefully selected, checked and approved.

We offer a large selection of homestays to suit everyone's interests: homestay with horseriding, golf, tennis, sport camps...
